How To Find Us

CROSSWOODS WOMEN'S HEALTH

*Comprehensive
Healthcare for Women*

Karin H. Moorma, MD, FACOG

Carol S. Jenkins, MD, FACOG

Bone Density Testing

Menopausal women and those younger with certain risk factors should obtain a "DEXA" or bone density screening. This fast and painless test can tell you if you have or are at increased risk for osteoporosis and fracture. We're pleased to offer this service to you at our location by appointment.

8:45am to 4:30pm Wednesday - Friday

Our Mission

Crosswood's obstetrician-gynecologists consider your health our primary concern. We strive to practice with integrity, relying on technical expertise and innovative procedures to provide the highest quality of medical care. We believe that a woman's health and well-being is best served through personal and confidential interactions with her physician within a professional, friendly, and supportive environment.

Your Visit

Because your time is valuable, patients are scheduled by appointment only. To arrange an office visit, please call 431-1634 between 9:00am and 4:30pm. In an emergency, call immediately. We will make every effort to see you that day. If you are unable to keep an appointment, please notify us 24 hours in advance. During your visit, you will meet many members of our healthcare team; feel free to ask questions and let us know how we might best meet your needs.

Childcare

We understand that it may be difficult for you to make arrangements for childcare at home so that you can tend to your own healthcare needs. Here at Crosswoods, we have a dedicated childcare area, which is staffed and supervised during all daytime appointment hours. This service is designed so that our patients may make the most of their medical consultations and not have to worry about their children. There are always plenty of fun activities to interest our younger guests. Of course, should your child wish to accompany you for your visit, he or she is more than welcome to do so!

Mammograms

Early detection is our best defense against breast disease. Along with monthly self-breast exams and yearly physician exams, screening mammograms are recommended beginning between ages 35 and 40. For your convenience, we can arrange to have yours completed on site at the time of your annual exam or any other appropriate time.

Billing

We accept payment from most major insurance carriers. Please check with your carrier to ensure coverage and bring your insurance information with you to your visit. When necessary, obtain a referral from your primary care provider in advance. Our fees are standardized and based on the complexity of your visit. Payment is due at the time of service unless other arrangements have been made in advance. Budget plans are available and will be designed to suit your financial situation. For your convenience, we accept Visa and MasterCard. For billing questions, please call: 431-1634.
